

# WHAT IS THE KCTC?

The Kansas Communities That Care (KCTC) Student Survey is built on a prevention framework to inform local and state programs, policies, and practices and to support healthy youth development. Since 1995, Greenbush has administered the KCTC Student Survey on behalf of the Kansas Department for Aging and Disability Services (KDADS). KDADS makes the survey available to Kansas schools at no cost, though the decision to administer the survey is left to the local school district. Our shared goal is to provide local data to guide planning and strategies to prevent risky behaviors among Kansas youth.

#### GUARDIAN – KCTC STUDENT SURVEY INFORMED CONSENT

Greenbush – The Education Service Center

**PROJECT TITLE:** Kansas Communities That Care (KCTC) Student Survey

#### DEAR VALUED GUARDIAN:

The Kansas Communities That Care (KCTC) Student Survey has been administered annually in Kansas since 1994-1995 and measures teen substance use, delinquency, and related problem behaviors. We know that students are influenced by many factors, and behavior and attitudes do not develop in isolation. What happens at home affects youth performance and behavior at school. What happens in our schools can affect youth attitudes toward the community, and vice versa. It is critical that we look at the whole picture to determine the most appropriate approaches to focus on prevention efforts. If problem behaviors decrease in schools and communities, they are better places to learn, grow, and live. To view a short video overview of the KCTC Student Survey and its importance to local communities, visit [kctcdata.org/video/kctc-promotional-video](https://kctcdata.org/video/kctc-promotional-video)

#### Lesson Plan

Your district survey coordinator will provide the date and time to proctor the survey, along with a list of 6th-, 8th-, 10th-, and 12th-grade students who have a signed [Guardian Consent Letter](#).

- **Allow one full period to complete the survey.**
  - Because the online survey is anonymous, it cannot be started and then finished later.
  - Advisory periods or other shortened periods may not allow enough time.
- **Provide an alternate assignment** for students whose guardian(s) have declined participation, who do not have a completed Guardian Consent Form, or who decline participation at the beginning of class. ( Participating students will have access to the Student Informed Consent embedded within the survey and will be reminded in the embedded survey instructions that all questions are optional, and that they may choose to stop the survey at any time by closing their web browser.)

#### Set Up the Classroom

- Chairs and device screens should be placed as if students are taking a test; separate students so they're not facing each other.
- Ensure the room contains sufficient lighting, a comfortable climate, and adequate space.
- Keep student group size small.

**Project Title:** Kansas Communities That Care (KCTC)

### **Dear Valued Student:**

The Kansas Communities That Care (KCTC) student survey measures teen substance use, delinquency, and related problem behaviors. We know that students are influenced by many factors and behavior and attitudes do not develop in isolation. What happens at home affects youth performance and behavior at school. What happens in our schools can affect youth attitudes toward the community, and vice versa. It is critical that we look at the whole picture to determine the most appropriate approaches to focus on prevention efforts. If problem behaviors decrease in schools and communities, they are better places to learn, grow, and live.

### **What is the purpose of this study?**

With the movement towards accountability at all levels, having high quality youth data is critical
